IMPORTS FOR CONSUMPTION,

BY

ARTICLES AND CLASSES,

1891-1896.

The arrangement of articles into classes is that adopted by the Bureau of Statistics since 1880, and must not be confounded with the tariff schedules. These classes are:

A. Articles of food and live animals.
B. Articles, in a crude condition, which enter into the various processes of domestic industry.
C. Articles wholly or partially manufactured for use as materials in manufactures and mechanic arts.
D. Articles manufactured ready for consumption.
E. Articles of voluntary use, luxuries, etc.

The object of the table is to show what may be regarded as the imports of any article or class in a year of average trade. The years 1891, 1892, and 1893, which were years of good trade, are set against 1894, 1895, and 1896, years of commercial depression.

IMPORTS ENTERED FOR CONSUMPTION AND DUTIES COLLECTED, BY ARTICLES AND CLASSES, FROM 1891 TO 1896.

Class A.—ARTICLES OF FOOD AND LIVE ANIMALS.

[Abbreviation n. e. s., not elsewhere specified.]

NOTE.—The values of articles withdrawn from warehouse on which the duty is remitted are excluded from all computations of average rates of duty.
